MATERIAL CHANGE OF LEADFRAME FOR 86SMX(LPN) CRYSTAL

This is to inform you that the material of leadframe for 86SMX(LPN) will change to Brass from 42 alloy. The plating materials will remain the same.

Item	Current	New
Material	42 alloy (42%Ni-Fe)	Brass (C2680R01/2H)
Plating(under)	Nickel	Nickel
Plating(surface)	Tin	Tin

The material change will be effective immediately after the current 42 alloy stock leadframes will be depleted and will be expected in January 2018

Sincerely yours

Masa Miura
Managing Director
