

CX11L TELEMETRY CRYSTAL

16 MHz to 250 MHz

Telemetry, Ultra Low Profile, Ultra-Miniature
Surface Mount Quartz Crystal

DESCRIPTION

When miniaturization is paramount, Statek's low profile CX11L AT quartz crystal is an excellent choice. Available in frequencies from 16 MHz to 250 MHz, this crystal has a typical footprint of 3.2 mm x 1.5 mm, and a typical height of 0.5 mm. The resonator is manufactured using Statek's photolithographic and chemical milling processes and then sealed within a ceramic package for high stability and low aging. Available with tight calibration tolerances and high stability over temperature, this crystal is well suited for applications that have a space restraint and require a crystal with a low profile.
