

Vorkonfektionierte Kabel sind eine interessante Alternative. Dabei wird das Kabel mit Stecker bzw. Steckdose und einem gerade abgeschnittenem offenem Ende geliefert. Dadurch kann der Anwender erhebliche Kosten sparen: das Endgehäuse entfällt und die Montage ist bereits erledigt.

Material Kabel PVC grau mit Schutzleiter  
 Temperaturbereich gelegentlich bewegt: -5°C bis +70°C  
 fest verlegt: -40°C bis +80°C  
 Lieferumfang Stecker/Steckdose am Kabel  
 Schutzart IP44 / IP65 auf Anfrage

Ready-made cables are an economically interesting alternative to the standard modular system. The cable is ready-fitted at one end with a plug or socket. The other end is a cleanly cut open cable end. This offers substantial savings for the end-user, since this obviates the need for an endhousing or its fitting.

cable material PVC grey with safety conductor  
 temperature range mobile: +23°F bis +158°F  
 fixed: -41.8°F bis +176°F  
 contents plug/socket attached to cable  
 protection class IP44 / IP65 available on request
