

產品變更通知單(PCN)

序號: DOC-PCN-H00010-000

機種名稱 Model No.	ICA-607	日期 Date	2014/03/21
----------------	---------	---------	------------

變更影響 Effect of Change:

規格 Specification
 圖面 Drawing
 包裝 Packaging
 其他 Others _____

變更原因 Reason for Change:

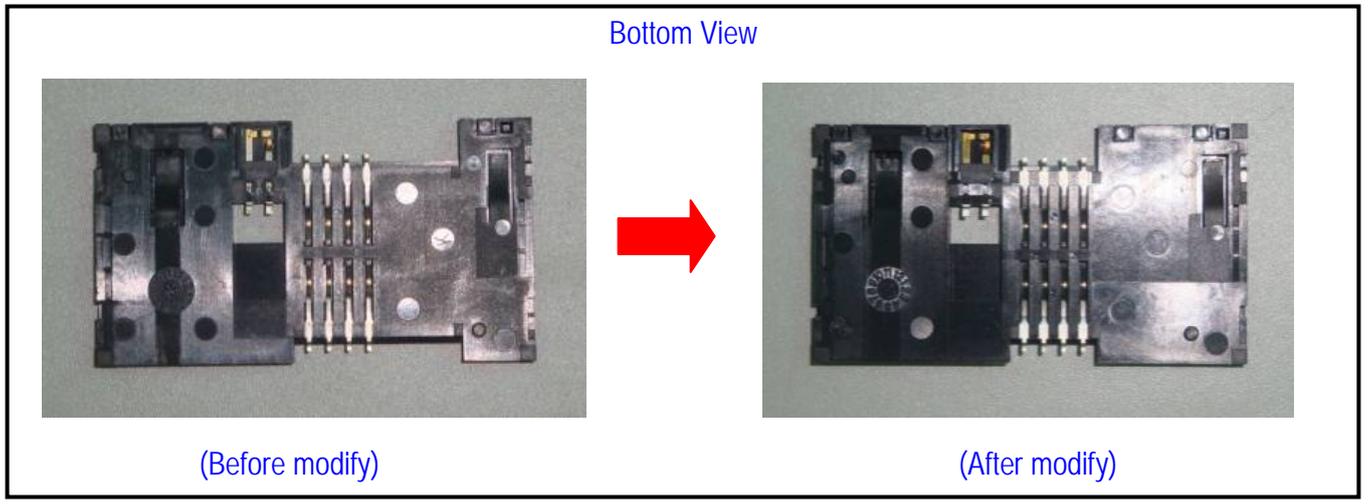

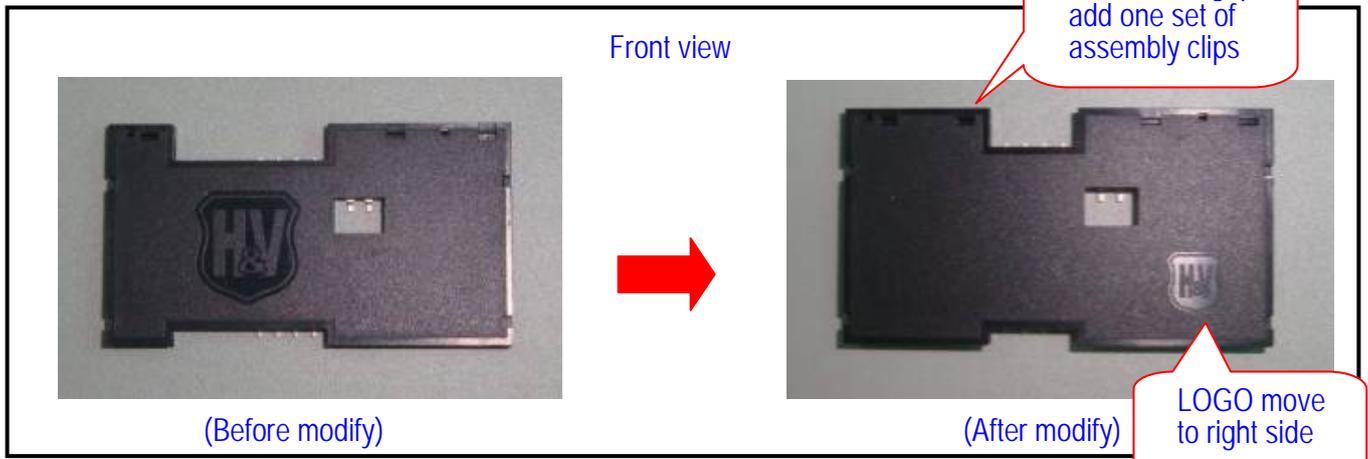

規格 Specification
 模具 Tooling
 材質 Material
 製造地 Manufacturing Location
製程 Process
 包裝 Packaging
 其他 Others: Structure optimization

變更內容 Change point :

Because product ICA-607 is an ultra-slim type, in order to upgrade its quality, we do optimization as below:

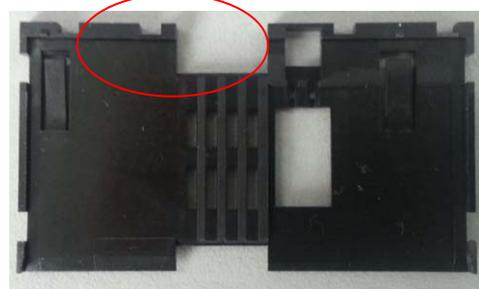

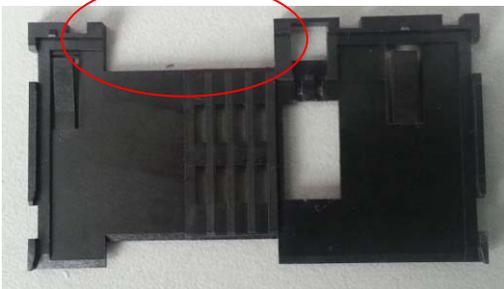

1. Reduce the gap on CP8 area, and add one set of assembly clips on BASE and COVER.
2. Move the Logo to right side.

From above optimization, it can enhance product structure, and the connection between card and CP8 can also get much stable after card inserted. It only has change on product appearance, and won't get impact for function and characteristics and meet original SPEC. Please refer to below comparison pictures.

Base & Cover material comparison pictures:

Reduce the gap,
add one set of
assembly clips

(Before modify)

(After modify)

需更新之文件:

Drawing, SPEC.
